

2025 Profile

Global Institutional Profiles Project

Medical University of Silesia

Thank you for
your continued
participation and
support of the
Global Institutional
Profiles Project!

Introduction

The Global Institutional Profiles Project creates accurate and comprehensive profiles of research institutions around the world.

With reliable and objective data on each institution, users of the data in these profiles are better equipped to:

- validate and quantify executive and strategic decisions
- support marketing, publicity and other promotional efforts
- supplement rankings and other assessment initiatives with additional indicators of excellence

By working closely with a multitude of personnel from universities and other related institutions around the world, we have been able to create the richest, clearest profiles to date—portraits of facts and figures on research activity, funding, students, and staff, supported by verifiable indicators from Clarivate.

About the Report

This Profile supplements the Institutional Profiles data available in *InCites Benchmarking & Analytics* and is provided to organizations contributing to the Institutional Profiles project. It is based on data from three main sources: data provided by the institution directly to Clarivate, data on the institution's publications and citations from Web of Science; and the results of the annual Academic Reputation Survey.

For more information please see: [Clarivate.com/global-profiles-project](https://clarivate.com/global-profiles-project)

Clarivate has conducted extensive validation of the data and applied powerful analytical techniques to interpret and present the data in a meaningful way.

This Profile and all data included herein may be used as a promotional and/or marketing device, as a management tool to be shared internally with colleagues for purposes of evaluation, or to provide institutional research executives with information on research performance. The information in this report may be used to assist students or faculty in the selection of your institution. You may use this report in the following ways:

- Post it on your institution's website (see below)
- Share with administrators at other institutions
- Submit with research assessments or government and funding proposals

Please note the data tables and individual performance results are the property of Clarivate. Use of any of the information must include the following notice: "*Clarivate reserves all rights to the data and data should not be extracted, republished, redistributed or used for any commercial purpose.*"

Brief Description

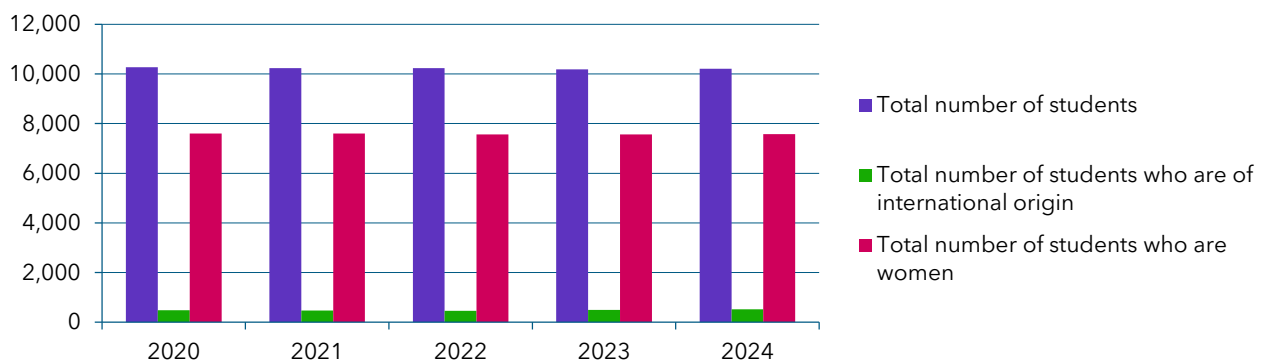

The Medical University of Silesia in Katowice has more than 270 departments, clinics, institutes and wards located mainly in Zabrze, Katowice, Sosnowiec and Bytom. Moreover, the University has six independent clinical hospitals in Katowice and Zabrze. The knowledge and qualifications of University staff are recognised both in Poland and internationally, and many of scientists are awarded honorary doctorates or sit on the governing bodies of European and Polish scientific societies. Our university has been authorised to confer doctoral and post-doctoral degrees in the field of medical and health sciences, in the disciplines of medical, health and pharmaceutical sciences. Educational offerings are provided in our Universities by five faculties and one branch in Bielsko-Biała. Since 1948, the University has been ensuring a high level of education for specialists in all medical faculties by providing full-time and part-time - both I and II degree programmes. Prospective students of our University can choose from 17 courses of study, of which the most important are: medicine, dentistry, nursing and midwifery, pharmacy and emergency medicine. From the 2021/2022 academic year, students can also broaden their knowledge in new courses - health and safety at work and medical coordinator. The University has more than 200 scientific clubs, student and doctoral organisations, associations and sports sections.

Papers - international co-author / papers	17.50

Note: Values and scale on tables and diagrams are cumulative probability scores, representing your institution's place compared to other institutions. Dotted line on the diagram represents a cumulative probability of 50 i.e. the median value. Maximum value is 100.

Summary

We hope you find this report informative and look forward to many years of collaboration to improve our multidimensional approach to institution profiling, data validation, and qualitative assessment. For over half a century, Clarivate has pioneered the world of citation indexing and analysis. All of our analytics tools and services are underpinned by the gold standard citation data in the Web of Science. We are therefore uniquely positioned to help you and your institution make informed decisions about current and future research and organizational strategies. We look forward to continuing our partnership with you and welcome any feedback you may have.

The data presented in this report represent just a fraction of what you can obtain when you subscribe to *InCites Benchmarking & Analytics*, a flexible research evaluation tool. *InCites* enables you to assess the impact and influence of people, departments, institutions, regions, and publications within the broader research ecosystem.

InCites delivers accurate, objective and complete data from the Web of Science Core Collection. Conduct responsible research assessments using trusted data that has passed strict research integrity policies and innovative indicators developed by the Institute for Scientific Information. Create a research strategy that aligns to your institution's values and goals by:

- benchmarking against peer institutions to understand your strengths and weaknesses.
- demonstrating funding outcomes to sponsor agencies, helping to improve future win rates.
- optimizing collaborations through past performance assessment and prospecting for new partnerships.

About Clarivate

Clarivate is a leading global provider of transformative intelligence. We offer enriched data, insights & analytics, workflow solutions and expert services in the areas of Academia & Government, Intellectual Property and Life Sciences & Healthcare. For more information, please visit clarivate.com
